

2 Are heavy metals from meltwater run-off accumulating in kelps?

3 How are abiotic factors and the status of the kelp forest changing in different fjord systems around Svalbard?

4 How does the abiotic tolerance of different Arctic kelp species vary?

1 How are increasing water temperatures and deteriorating light affecting the compensation point of Arctic kelp photosynthesis?
⇒ Published in Limnology and Oceanography

2 Is meltwater run-off affecting the kelp associated microbial community?
